¹ For non-preventive drugs, you pay the full price of the drug until you meet the deductible, at which point you pay the applicable copay or coinsurance.

² If performed as part of a physician office visit and billed by the physician, expenses are covered subject to the applicable physician's office visit member cost sharing.

³ If a brand drug is purchased when a generic is available, you pay the copayment plus the difference in cost between the brand and generic medication. The Deductible applies before the above copay schedule (except for preventive medication).
